Bringing Aztlan to Mexican Chicago is the autobiography of José Gamaliel González, an impassioned artist willing to risk all for the empowerment of his marginalized and oppressed community. Through recollections emerging in a series of interviews conducted over a period of six years by his friend Marc Zimmerman, González looks back on his life and his role in developing Mexican, Chicano, and Latino art as a fundamental dimension of the city he came to call home. Born near Monterey, Mexico, and raised in a steel mill town in northwest Indiana, González studied art at the School of the Art

Institute of Chicago and the University of Notre Dame. Settling in Chicago, he founded two major art groups: El Movimiento Artístico Chicano (MARCH) in the 1970s and Mi Raza Arts Consortium (MIRA) in the 1980s. With numerous illustrations, this book portrays González's all-but-forgotten community advocacy, his commitments and conflicts, and his long struggle to bring quality arts programming to the city. By turns dramatic and humorous, his narrative also covers his bouts of illness, his relationships with other artists and arts promoters, and his place within city and barrio politics.

Impact of the Hispanic/Latinx population on the Silver State in the past, present, and future. This extensive study by a distinguished and multidisciplinary team of scholars discusses the impact of the Latinx population from the early development of the state of Nevada and highlights their roles in society, as well as the specific implications of their growing presence in the state. It also contemplates the future of the Latinx population and the role they will continue to play in politics and the economy. This in-depth examination of a large and relatively understudied population will be of interest to scholars and students who study disparities in health and education opportunities as well as the political and economic climate among Latinos and other groups in Nevada and beyond. A political, economic, and demographic profile, this book: Explores the history, growth, and diversity of the Latinx population. Draws on an array of census data, voter surveys, statistics,

Parenting: Contemporary Clinical Perspectives offers fresh insights into treating parents and their children that highlight the evolving role of parents throughout the lifespan and amidst contemporary social pressure and change. By drawing from their own personal experiences as well as those from clinical practice, distinguished clinicians and analysts examine each phase of parenting through a variety of lenses to tackle our biggest parenting questions. While we must be highly present for our children to help them develop a sense of self-worth, we

must simultaneously step back if we want them to develop a sense of autonomy and individuality. As our role as parent changes, how can we maintain a sense of grace, humor, and perspective? How can our work in practice inform and enrich our parenting, and vice versa? Thoughtful and engaging, this volume is a valuable resource for family therapists and clinicians, especially those who are parents themselves.

establishment of Mexican American religious studies as a distinct, recognized field of scholarly inquiry. Scholars of religion, Latin American, and Chicano/a studies as well as of sociology, anthropology, and literary and performance studies, address several broad themes. Taking on questions of history and interpretation, they examine the origins of Mexican American religious studies and Mario Barrera ' s theory of internal colonialism. In discussions of the utopian community founded by the preacher and activist Reies L ó pez Tijerina, C é sar Ch á vez ' s faith-based activism, and the Los Angeles-based Cat ó licos Por La Raza movement of the late 1960s, other contributors focus on mystics and prophets. Still others illuminate popular Catholicism by looking at Our Lady of Guadalupe, home altars, and Los Pastores dramas (nativity plays) as vehicles for personal, social, and political empowerment. Turning to literature, contributors

Consider Gloria Anzaldúa's view of the borderlands as a mystic vision and the ways that Chicana writers invoke religious symbols and rhetoric to articulate a moral vision highlighting social injustice. They investigate the role of healing, looking at it in relation to both the Latino Pentecostal movement and the practice of the curanderismo tradition in East Los Angeles. Delving into to popular culture, they reflect on Luis Valdez's video drama La Pastorela: "The Shepherds' Play," the spirituality of Chicana art, and the religious overtones of the reverence for the slain Tejana music star Selena. This volume signals the vibrancy and diversity of the practices, arts, traditions, and spiritualities that reflect and inform Mexican American religion. Contributors: Rudy V. Beginning with a comprehensive definition and demographic map of Latinos, Latino culture, and a cultural asset paradigm, this book identifies strategies for designing culturally relevant programs and services.

When Latinos in the United States was first published in 1986, it was hailed as a "triumph" by the National Catholic Reporter, "inspiring" by the journal American Studies, and was named an Outstanding Academic Book of the Year by Choice. The book was widely adopted in Latino and ethnic studies classes at colleges and universities throughout the country. Now, in the second edition, David Abalos

updates his pioneering application of the transformation theory to key aspects of Latino politics, history, and culture. He draws on examples from everyday human encounters to address specific concerns of both Latino individuals and groups. Among the issues addressed are: the need to maintain Latino family heritage while allowing each member to develop the autonomy necessary to interact both within the family and within American society; the importance of avoiding assimilation; the necessity for Latinos to develop the skills and competence that allow them to enter into America's business world without losing their commitment to the community; rediscovery of Latino religious symbols of transformation that renew the life of the sacred; and the need to preserve Latino heritage through a strategy of being both American and Latino. The second edition contains extensive new material. Abalos includes a new section on archetypal analysis. He has

added discussions of the relationship between the sacred and the political in American politics, and of assimilation and its effects on the immigrant. He addresses the new wave of migration and what it means to the future of the United States and la comunidad Latina. Abalos has also added a new chapter on the politics of education, which is, he argues, the most important civil rights issue facing the Latino community. The notes and bibliography reflect recent scholarship, especially that of Latina writers and Chicana feminists.
