Northern urbanite D. B. Tipmore describes the culture shock he experienced after moving to a small Alabama town in *My Little Town: A Pilgrim's Portrait of a Uniquely Southern Place*. From chicken salad to national politics, Tipmore shares the unique character of the South through the microcosm of his small town. *My Little Town* turns the Yankee-comes-to-Dixie literary genre outside in, examining Lovelady, Alabama, through the eyes of someone who should never have been living there and yet found himself there for more than a decade. With a keen appreciation of its peculiarly Southern tableau, the book lovingly scrutinizes an Alabama village short chapter by short chapter, accompanied by photographer Frank Williams's images. Funeral visitations, poisoned soup luncheons, Pilgrimage hosting, supper clubs, family feuds, Obama Day parades, politics, Jews, and chicken salad recipes are all treated with a voice of singular precision and affection. Simultaneously author D. B. Tipmore couples this fresh view of Southern small-town life with his own narrative of a worldly urban

nomad who hopes to find a home in one of the most isolated areas of the United States, peculiarly defined by its racial history and regional mores. By conflating the two stories, *My Little Town* challenges the reader as much as the author, raising serious questions about our ability as Americans to transcend our regional identities and cultural complexities.

A groundbreaking study of visionary artist Hilma af Klint. When Swedish artist Hilma af Klint died in 1944 at the age of 81, she left behind more than a thousand paintings and works on paper that she kept largely private during her lifetime. Believing the world was not yet ready for her art, she stipulated that it should remain unseen for another 20 years. But only in recent decades has the public had a chance to reckon with af Klint's radically abstract painting practice - one which predates the work of Vasily Kandinsky and other artists widely considered trailblazers of modernist abstraction.

Accompanying the first major survey exhibition of the artist's work in the United States, *Hilma af Klint* represents her groundbreaking painting series while expanding recent scholarship to present the fullest picture yet of the artist's life and work. Essays explore the social, intellectual, and artistic milieu of af Klint's 1906 break with figuration and her subsequent development, placing her in the context of

Swedish modernism and folk art traditions, contemporary scientific discoveries, and spiritualist and occult movements. A roundtable discussion among contemporary artists, scholars, and curators considers of Klint's sources and relevance to art in the 21st century. The volume also delves into her unrealized plans for a spiral-shaped temple in which to display her art - a wish that finds a fortuitous answer in the Guggenheim Museum's rotunda, the site of the forthcoming exhibition.
