Subverting stereotypical images of women, a new generation of feminist artists is remaking the pin-up, much as Annie Sprinkle, Cindy Sherman, and others did in the 1970s and 1980s. As shocking as contemporary feminist pin-ups are intended to be, perhaps more surprising is that the pin-up has been appropriated by women for their own

empowerment since its inception more than a century ago. Pin-Up Grrrls tells the history of the pin-up from its birth, revealing how its development is intimately connected to the history of feminism. Maria Elena Buszek documents the genre's 150-year history with more than 100 illustrations, many never before published. Beginning with the pin-up's origins in mid-nineteenth-century carte-de-visite photographs of burlesque performers, Buszek explores how female sex symbols, including Adah Isaacs Menken and Lydia Thompson, fought to exert control over their own

images. Buszek analyzes the evolution of the pin-up through the advent of the New Woman, the suffrage movement, fanzine photographs of early film stars, the Varga Girl illustrations that appeared in Esquire during World War II, the early years of Playboy magazine, and the recent revival of the genre in appropriations by third-wave feminist artists. A fascinating combination of art history and cultural history, *Pin-Up Grrrls* is the story of how women have publicly defined and represented their sexuality since the 1860s.

FROM THE FORWARD BY ALICIA HOLLINGER: Why half-naked pin-ups, you may ask? Well I started out doing high-fashion looks and then realized there's really not a market for computer-generated models in fashion because there are so many actual living ones who have to wear real life clothes... And then, one day, back in 2009, someone saw my art and suggested I go to Comic-Con in San Diego. "What's that?"

I asked. It ended up being something that changed my life. I went into Comic-Con day one, a jaded Hollywood/New York self-professed over-educated party-girl to, after four days of immersion in this strange new land, I emerged—a geek! While standing in a ridiculous line in front of a mock-up of a Stargate from Stargate SG-1 (which I had just started watching the year the series ended and went into syndication) waiting with all the other Stargate fans, something happened. The years of jadedness began to lift and while staring into the epicenter of that Stargate

mock-up, feeling almost as if I were in line to go through an actual wormhole, I felt a sudden affinity with those around me. I suddenly GOT IT, I understood geekdom! It wasn't about those nerds in school who covered their work during tests in fear you may copy off them, it was about embracing otherworldly possibilities and immersing yourself in imaginary universes with imaginary people who are beyond mere mortals. So, it was right there at the Stargate booth at Comic-Con that my whole life changed. I started embracing geekdom. My favorite TV shows became

"Stargate SG-1," "Battlestar Galactica," "Firefly," "Eureka," and then "Continuum," and my motto came to be the SYFY Channel's corporate slogan "Imagine Greater." Oh, and sex sells, so therefore, the scantily clad girls LOL... So, basically, I drank of the Comic-Con Kool-Aid, and mixed it with my existing Hollywood world of parties filled with Playboy and Maxim models and it turned into the sci-fi, fantasy and "girlicious" pin-ups of today... :)
