Property flipping is when a property is bought and then sold again after a short period of time - usually within a year - with the aim of making money. In times when house prices are rising rapidly, you may be able to make money without doing anything to the property, but when prices are rising more slowly you'll need to renovate and improve it to boost its value.

Let's face it—fixing and flipping houses is sexy. Who doesn't love the idea of buying a rundown, mold-infested shack and transforming it into someone's dream home for massive profits? Reality TV shows make it look so easy. A little paint here, some new kitchen cabinets there, and presto! The house is sold for big bucks and everyone lives happily ever after. If only it were that simple. Fixing and flipping houses is a business. In order for a business to survive, prosper, and grow, systems must be put in place. Fixing and Flipping Real Estate: Strategies for the Post-Boom Era is a book that breaks down the four essential components of a fix-and-flip business, giving you the building blocks to efficiently buy and sell 1 to 20 properties a month in today's post-boom era housing market. You'll learn about each of the boxes: Acquisition—How to find and buy a profitable real estate deal. Rehabbing—How to systematically remodel a house and how not to underimprove, or overimprove, your property. Sales—How to sell your flip for the highest possible price in the shortest possible time. Raising Capital—How to get the capital you need to grow your business, including using other people's money, for your real estate deals without getting sued or going to jail.

This book shows real estate investors everything they need to know to get started fixing and reselling houses either as a substantial sideline or a full-on business.
