'Evocatively written and charming' - Countryfile The January Man is the story of a year of walks that was inspired by a song, Dave Goulder's 'The January Man'. Month by month, season by season and region by region, Christopher Somerville walks the British Isles, following routes that continually bring his father to mind. As he travels the country - from the winter floodlands of the River Severn to the lambing pastures of Nidderdale, the towering seabird cliffs on the Shetland Isle of Foula in June and the ancient oaks of Sherwood Forest in autumn - he describes the history, wildlife, landscapes and people he encounters, down back lanes and old paths, in rain and fair weather. This exquisitely written account of the British countryside not only inspires us to don our boots and explore the 140,000 miles of footpaths across the British Isles, but also illustrates how, on long-distance walks, we can come to an understanding of ourselves and our fellow walkers. Over the hills and along the byways, Christopher Somerville examines what moulded the men of his father's generation - so reticent about their wartime experiences, so self-effacing, upright and dutiful - as he searches for 'the man inside the man' that his own father really was.

In January 2006, a month or two after my father died, I thought I saw him again - a momentary impression of an old man, a little stooped, setting off for a walk in his characteristic fawn corduroys and shabby quilted jacket. After teenage rifts it was walking that brought us closer as father and son; and this 'ghost' of Dad has been walking at my elbow since his death, as I have ruminated on his great love of walking, his prodigious need to do it - and how and why I walk myself. Seminar paper from the year 2004 in the subject English Language and Literature Studies - Literature, grade: 2,3, Ruhr-University of Bochum, 7 entries in the bibliography, language: English, abstract: Why did I choose Mitchell's story? Superficially because it's very easy to get into the story and entertaining to go on, not only because of the colloquial style but also because of the exciting plot, which casts a spell over the reader - but in the final analysis, it was because there hides a complex story under the trivial appearing surface in David Mitchell's The January Man. In this assignment I release the view on the hidden characteristics and special qualities of this story by first interpreting it within the individual paragraphs, then by examining the aspects relevant for the whole story to categorize David Mitchell's story on the basis of my insights and in relation to Modernist, Postmodernist and Contemporary Short Stories."

'Somerville is one of our finest gazetteers of the British countryside. He brings his formidable knowledge to bear on his personal quest to explore the cathedrals in this entrancing book' The Spectator Christopher Somerville, author of the acclaimed The January Man, pictured cathedrals as great unmoving bastions of tradition. But as he journeys among Britain's favourites, old and new, he discovers buildings and communities that have been in constant upheaval for a thousand years. Here are stories of the monarchs and bishops who ordered the construction of these buildings, the masons whose genius brought them into being, and the peasants who worked and died on the scaffolding. We learn of rogue saints exploited by holy sinners, the pomp and prosperity that followed these ships of stone, the towns that grew up in their shadows. Meeting believers and non-believers, architects and archaeologists, the cleaner who dusts the monuments and the mason who judges stone by its taste, we delve deep into the private lives and the uncertain future of these ever-voyaging Ships of Heaven. 'Somerville paints word pictures of exquisite quality' Church Times

"Terrifying... Eloquent... A heart-rending drama of human yearning." --New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of Into the Wild. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interest that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. Digging deeply, he takes an inherently compelling mystery and unravels the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing

from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, *Into the Wild* is a tour de force. The power and luminosity of Jon Krakauer's stoytelling blaze through every page.

Now a classic, this is the fundamental text for those seeking a "Spiritual Understanding of Nature on the Basis of Goethe's Method of Training Observation and Thought." Working out of a detailed history of science, Lehrs reveals to the reader not only how science has been inescapably led to the illusions it holds today, but more importantly, how the reader may correct in himself these misconceptions brought into his world view through modern education.
