Though this 6th edition was published in 2006, it is still the latest edition released for the TNCC certification. UPDATE: January 10, 2014 The first TNCC courses using 7th edition materials will begin after February 2014. I have not yet seen a 7th edition text available for TNCC students – only updated instructor materials.

Learn to provide state-of-the-art care to any patient in any setting with the most comprehensive trauma nursing resource available. Using the unique cycles of trauma framework, Trauma Nursing: From Resuscitation Through Rehabilitation, 5th Edition features coverage of cutting-edge research findings and current issues, trends, and controversies in trauma nursing. The thoroughly updated fifth edition guides you through all phases of care – from preventive care and the time of injury to the resuscitative, operative, critical, intermediate, and rehabilitative stages. Plus, new chapters address unique trauma patient populations including pregnant women, children, the elderly, bariatric individuals, burned patients, those with a history of substance abuse and organ donors. With timely discussions on emerging topics such as mass casualty events and rural trauma, this is the most complete resource available for both students and experienced trauma nurses. UPDATED! Disaster preparedness, response and recovery for mass casualty incidents prepares students to act quickly and confidently in the event of a disaster, with guidelines for initial response and sustained response. UPDATED! The latest sepsis protocols, opioid use and pain/sedation protocols, and treating injured patients with diabetes. Special populations coverage prepares you to meet the needs of unique trauma patient populations including pregnant women, children, the elderly, bariatric individuals, burn patients, those with a history of substance abuse and organ donors. Coverage of specific issues that affect all patients regardless of their injury, gives you a solid understating of mechanism of injury, traumatic shock, patient/family psychosocial responses to trauma, pain, anxiety, delirium and sleep management; infection; wound healing, and nutrition. Tables and illustrations throughout add clarity to the content being discussed. NEW! Information on a team-centered, interdisciplinary approach to care. NEW! Up-to-date evidence-based information about issues that affect trauma care systems, includes injury pathophysiology, and state-of-the-art care for the trauma patient during all phases of care. NEW! All new content includes information on cultural sensitivity, care for caregivers, and how to handle self-harm injuries and suicide. NEW! Certification review questions help you to prepare for certification by listing the correct answers and rationales. NEW! Current recommendations for measuring fluid administration responsiveness.

A market leader for the study skills course, COLLEGE STUDY SKILLS: BECOMING A STRATEGIC LEARNER, Seventh Edition is a wide-ranging, practical text that focuses on helping students become actively engaged in their own learning. The text incorporates active learning strategies to help students succeed in college by introducing a strategy, allowing them to practice it, and having them do self-assessments to gain feedback on their own success. This variety of strategies and activities, as well as authentic and engaging text material from numerous core subject areas, gives students opportunities to apply what they are learning to their course work in other college classes. The Seventh Edition has a new focus on motivation. Chapter (1) Getting Motivated focuses on the importance of motivation in college success. More information on the causes of motivation problems and strategies for increasing motivation are also included, and each of the chapters that follow in the text strengthens the connection between motivation and the strategies that are presented, so that students continue to increase their motivation throughout the course. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

This is a comprehensive review for the new trauma-certified registered nurse exam, featuring innovative clinical judgment--enhancing content review, 500 practice-test Q&As with rationales, test-taking skills, and in-depth coverage of the test blueprint. This review is distinguished by its unique "Think in Questions" format, which helps readers to anticipate the kinds of questions that might be asked and promotes critical thinking throughout the exam. The content review is comprised of bite-size sections for easier learning and memorization that include thousands of unfolding questions, answers, and hints. The review's user-friendly format guides candidates through each topic with a short content review followed by a Socratic-style Q&A reasoning process to assist in arriving at the best possible clinical judgment. It also includes plentiful tables and charts to reinforce learning, a chapter on test-taking skills, specific guidance on preparing for the certification exam, and useful suggestions related to the exam format. Key Features: Goes beyond mere memorization of facts with "Think in Questions" Socratic-style content review Provides content review, practice exam-style Q&A with rationales, test-taking skills, and test blueprint format Includes thousands of unfolding questions, answers, and hints Contains "bite-size" sections for each topic for easier learning and memorization Includes 500 exam-style questions with rationales The Board of Certification for Emergency Nursing (BCEN) is the sole owner of the Trauma Certified Registered Nurse (TCRN) certification program. BCEN does not endorse any TCRN certification exam review resources or have a proprietary relationship with Springer Publishing Company.

This uniquely effective guide helps readers master the 2020 National Electrical Code, using highly detailed, technically accurate illustrations to make even the most complex aspects of the code easier to understand and apply. An experienced author, educator and master electrician, Charles Miller translates the often vague, complicated language of the 2020 NEC into clear, simple instructions accompanied by helpful visuals. Topics are organized logically and presented in a convenient, modular format for easy reference, beginning with fundamental concepts and progressing to requirements for various dwellings, from one-family homes to multi-family housing, commercial locations and special occupancies. In addition, a convenient, modular format makes it easy to reference relevant information anytime. The Eighth Edition of this trusted resource provides detailed information on key updates and additions to the 2020 NEC, so readers can confidently master current industry standards and best practices. Comprehensive coverage, an innovative learning approach perfect for today's visual learners and accurate, up-to-date information make this valuable resource indispensable for beginning and experienced electricians, engineers and other electrical professionals. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

"Basic Arrhythmias, Eight Edition" gives beginning students a strong basic understanding of the common, uncomplicated rhythms that are a foundation for further learning and success in electrocardiography. The first eight chapters, which can be used as self-instruction, cover basic electrophysiology, waves and measurements, rhythm analysis, and the five major groups of arrhythmias."Basic Arrhythmias" then introduces cardiac anatomy, clinical manifestations, 12-lead electrocardiography, and cardiac pacemakers. This new Eighth Edition also features our all new MyBRADYLabthe world's leading collection of online homework, tutorial, and assessment products designed with a single purpose in mind: to improve the results of all higher education students, one student at a time."
