has allowed basic common sense to once again rule how real traders should approach the market. This is a must-read for any trader that wants to learn his own path to success."

□ Noble Drakoln, founder, SpeculatorAcademy.com, and author of Trade Like a Pro and Winning the Trading Game "A great trader once told me that success was a function of focused energy. This mantra is proven by Al Brooks, who left a thriving ophthalmology practice to become a day trader. Al's intense focus on daily price action has made him a successful trader. A born educator, Al also is generous with his time, providing detailed explanations on how he views daily price action and how other traders can implement his ideas with similar focus and dedication. Al's book is no quick read, but an in-depth roadmap on how he trades today's

volatile markets, complete with detailed strategies, real-life examples, and hard-knocks advice." —Ginger Szala, Publisher and Editorial Director, Futures magazine Over the course of his career, author Al Brooks, a technical analysis contributor to Futures magazine and an independent trader for twenty-five years, has found a way to capture consistent profits regardless of market direction or economic climate. And now, with his new three-book series—which focuses on how to use price action to trade the markets—Brooks takes you step by step through the entire process. In order to put his methodology in perspective, Brooks examined an essential array of price action basics and trends in the first book of this series, Trading Price Action TRENDS. Now, in this second book, Trading Price Action TRADING RANGES, he provides

important insights on trading ranges, breakouts, order management, and the mathematics of trading. Page by page, Brooks skillfully addresses how to spot and profit from trading ranges—which most markets are in, most of the time—using the technical analysis of price action. Along the way, he touches on some of the most important aspects of this approach, including trading breakouts, understanding support and resistance, and making the most informed entry and exit decisions possible. Throughout the book, Brooks focuses primarily on 5 minute candle charts—all of which are created with TradeStation—to illustrate basic principles, but also discusses daily and weekly charts. And since he trades more than just E-mini S&P 500 futures, Brooks also details how price action can be used as the basis for trading stocks,

While complex strategies and systems may work for some traders, understanding price action is all you really need to succeed in this arena. Price action analysis is an effective approach to trading today's markets—whether you're involved in stocks, futures, or options. It allows you to focus on the process of trading without being overwhelmed by a complicated collection of trading techniques. And while this method may appear elementary, it can significantly enhance returns as well as minimize downside risk. One way to apply price action analysis to your trading endeavors is with chart patterns. Nobody understands this better than author Al

Read PDF Trading Course

Brooks, a technical analyst for Futures magazine and an independent trader for more than twenty years. Brooks discovered ten years ago that reading price charts without indicators proved to be the most simple, reliable, and profitable way for him to trade. Mastering that discipline is what made him consistently successful in trading. Now, with Reading Price Charts Bar by Bar, Brooks shares his extensive experience on how to read price action. At the end of the day, anyone can look at a chart, whether it is a candle chart for E-mini S&P 500 futures trading or a bar chart for stock trading, and see very clear entry and exit points. But doing this in real time is much more difficult. Reading Price Charts Bar by Bar will help you become proficient in the practice of reading price action through the use of trendlines

Read PDF Trading Course

and trend channel lines, prior highs and lows, breakouts and failed breakouts, and other tools—and show you how this approach can improve the overall risk-reward ratio of your trades. Written with the serious trader in mind, this reliable resource addresses the essential elements of this discipline, including the importance of understanding every bar on a price chart, why particular patterns are reliable setups for trades, and how to locate entry and exit points as markets are trading in real time. Brooks focuses on five-minute candle charts to illustrate basic principles, but discusses daily and weekly charts as well. Along the way, he also explores intraday swing trades on several stocks and details option purchases based on daily charts—revealing how using price action alone can be the basis for this type of trading. There's

Read PDF Trading Course

no easy way to trade, but if you learn to read price charts, find reliable patterns, and get a feel for the market and time frame that suits your situation, you can make money. While price action trading doesn't require sophisticated software or an abundance of indicators, this straightforward approach can still put you in a better position to profit in almost any market. Reading Price Charts Bar by Bar will show you how.
