areas of chemistry, including atoms and molecules, structures of organic matter, and catalysis. Suggested level: intermediate, secondary.

This text is part of a series of reference books designed for children aged nine years and upwards. The books contain exploded view photographs and 3500 specific words presented in a labelled form, both of which are designed to help expand the child's knowledge and vocabulary. This book looks at cars, with every part of a car labelled from the inside of a steering wheel to how a carburettor works. Other titles in this series look at The Human Body, Animals and Ships and Sailing.
