Why would a talented young woman enter into a torrid affair with hunger, drugs, sex, and death? Through five lengthy hospital stays, endless therapy, and the loss of family, friends, jobs, and all sense of what it means to be "normal," Marya Hornbacher lovingly embraced her anorexia and bulimia -- until a particularly horrifying bout with the disease in college put the romance of wasting away to rest forever. A vivid, honest, and emotionally wrenching memoir, Wasted is the story of one woman's travels to reality's darker side -- and her decision to find her way back on her own terms.

Psychotherapist Michael Pond is no stranger to the devastating consequences of alcoholism. He has helped hundreds of people conquer their addictions, but this knowledge did not prevent his own near-demise. In this riveting memoir, he recounts how he lost his practice, his home, and his family--all because of his drinking. After scores of visits to the ER, a tour of hellish recovery homes, a stint in intensive care for end-stage alcoholism, and jail, Pond devised his own personal plan for recovery. He met Maureen Palmer and together they investigated scientific alternatives to the rigid abstinence doctrine pushed by 12-Step programs.

A riveting exploration of the complicated, and often surprising, ways that waste occurs in our businesses, our communities, and our lives "A smart, unconventional book that takes readers far beyond what they think they know about a complex subject."--Kari Byron, former cast member of MythBusters
Waste. We spend a great deal of energy trying to avoid it, but once you train your eyes to look for it, you'll see it all around you--in your home, your business, and your everyday life. In Wasted, futurist Byron Reese and entrepreneur Scott Hoffman take readers on a fascinating journey through this modern world of waste, drawing on science, economics, and human behavior to envision what a world with far less of it--or none of it at all--might look like. Along the way, they explore thought-provoking issues such as \* why the United States got a higher proportion of its energy from renewable sources in 1950 than it does today \* whether the amount of gold in unused consumer electronics can be mined for profit \* how switching to water fountains on a single flight from Singapore to Newark could prevent the use of 3,400 plastic bottles \* whether the amount of money you save buying goods in bulk is offset by the amount you lose when some spoil
Ultimately, the question of reducing waste is scientific, philosophical, and, most of all, complex. According to Reese and Hoffman, the rush toward simple answers has often led to well-meaning efforts that cause more waste than they save. The only way we can hope to make progress is to treat waste as the complicated issue it is. While the authors don't promise easy answers, in this compelling book they take an important step toward solutions by examining the questions at play, giving actionable steps, and ensuring that you'll never see the world of waste the same way again.

Known as the so-called "Rough Sex Killing," the 1986 murder of college-bound teenager Jennifer Levin at the hands of preppe Robert Chambers shocked and horrified the nation, receiving as much attention and media hype as the O.J. Simpson case that followed soon afterward. In Wasted, which was named a "Notable Book of the Year" by the New York Times, veteran journalist Linda Wolfe goes behind the headlines to tell the full story of this chilling crime. With never-before-revealed details, Wolfe re-creates in vivid detail the reckless world of the affluent teenagers of the 1980s, the vicious court battles that attempted to paint sexually-free Jennifer as responsible for her own death, the startling jury-room wars that prevented the jurors from reaching a verdict on Chambers' culpability, and the secrets behind the preppeie's last-minute plea bargain. A true crime classic, this tale of two youngsters who connected - and crashed - in the fast lane of privilege and sex, is haunting and unforgettable. "Fascinating, horrifying, and heart-breaking." - Ann Rule "A real page-turner." - Mademoiselle Magazine "Written with breadth, subtlety and fierce intelligence." - John Leonard, New York Magazine

Nadeem Aslam's new novel takes place in modern-day Afghanistan. A Russian woman named Lara arrives at the house of Marcus Caldwell, an Englishman and widower living in an old perfume factory in the shadow of the Tora Bora mountains. It is possible that Marcus's daughter, Zameen, may have known Lara's brother, a Soviet soldier who disappeared in the area many years previously. But like Marcus's wife, Zameen is dead, a victim of the age in which she was born. In the days that follow, further people will arrive at the house: David Town and James Palantine, two Americans who have spent much of their adult lives in the area, for their respective reasons; Dunia, a young Afghan teacher; and Casa, a radicalised young man intent on his own path. The stories and histories that unfold, interweaving and overlapping, and spanning nearly a quarter of a century, tell of the terrible afflictions that have plagued Afghanistan.

Vander Ven argues that college students rely on "drunk support." Contrary to most accounts of alcohol abuse as being a solitary problem of one person drinking to excess, the college drinking scene is very much a social one where students support one another through nights of drinking games, rituals and rites of passage.

Using clear, readable prose, conceptual artist and poet Kenneth Goldsmith's manifesto shows how our time on the internet is not really wasted but is quite productive and creative as he puts the experience in its proper theoretical and philosophical context. Kenneth Goldsmith wants you to rethink the internet. Many people feel guilty after spending hours watching cat videos or clicking link after link after link. But Goldsmith sees that “wasted” time differently. Unlike old media, the internet demands active engagement—and it’s actually making us more social, more creative, even more productive. When Goldsmith, a renowned conceptual artist and poet, introduced a class at the University of Pennsylvania called “Wasting Time on the Internet”, he nearly broke the internet. The New Yorker, the Atlantic, the Washington Post, Slate, Vice, Time, CNN, the Telegraph, and many more, ran articles expressing their shock, dismay, and, ultimately, their curiosity. Goldsmith’s ideas struck a nerve, because they are brilliantly subversive—and endlessly shareable. In Wasting Time on the Internet, Goldsmith expands upon his provocative insights, contending that our digital lives are remaking human experience. When we’re “wasting time,” we’re actually creating a culture of collaboration. We’re reading and writing more—and quite differently. And we’re turning concepts of authority and authenticity upside-down. The internet puts us in a state between deep focus and subconscious flow, a state that Goldsmith argues is ideal for creativity. Where that creativity takes us will be

one of the stories of the twenty-first century. Wide-ranging, counterintuitive, engrossing, unpredictable—like the internet itself—Wasting Time on the Internet is the manifesto you didn't know you needed.

Following the shocking death of a teenage boy, Barrett and Amelia are moved to revisit the passing of their own daughter, Edi, which occurred in the same small town nearly a decade earlier. Amelia finds herself caring for the recently deceased boy's "sort of" girlfriend, who faces constant harassment and accusations from the townsfolk, while Barrett combs through Edi's self-published fantasy novels in an effort to connect with her. As he reads, an increasingly bizarre wave of incidents crashes down upon the town involving a talking goat, Bigfoot, and a G-Man with alien thought patterns, to name but a few. As the Missouri River slowly floods, and the thin line between fact and fiction is washed away, Barrett and Amelia struggle against the great unknown and search desperately for inner peace. Blending whimsy and wonder with a mix of mayhem and malevolence, Water, Wasted takes readers on a tour of loss, redemption, and the great unknown.
