Western Fertilizer Handbook: Third Horticulture Edition eBook: Western Plant Health Association, Pier, Jerome, Barlow, Dave: Amazon.co.uk: Kindle Store

High-quality plants and aesthetically striking landscapes are trademarks of the western United States. The climatic zones resulting from the interaction of the cool Pacific Ocean and dramatic mountain ranges allow a very diverse array of plants to be grown in the West. Western Fertilizer Handbook, Third Horticulture Edition presents information clearly to a lay audience while also being useful for advanced field practitioners. The book 's first five chapters provide basic information on best practices for growing plants, followed by chapters on fertilizers. After an introduction to hydroponic techniques, the handbook concludes with diagnostic techniques and nutrient management guidelines. Each chapter ends with suggestions for supplementary reading that allow the reader to explore topics more deeply. The appendices gather useful tables and techniques for managing and working with fertilizers. Turf and ornamental professionals are under increasing pressure to recommend and use sustainable practices. By improving one 's knowledge of the growth and development of plants and the media, water, and fertilizer used to grow them, the turf and ornamental industry can continue to produce the stunning landscapes the world associates with the western United States.

This handy guide is a primer for consultants, local agencies, and lending institutions that summarizes practical approaches and technologies that have been implemented by progressive dairy producers to protect surface and groundwater quality. Since each dairy is different, practices must be tailored to each situation. This guide discusses three types of dairies – dairies with irrigated cropland, dairies with non-irrigated pasture and hay fields, and dairies with limited cropland – and outlines a variety of management measures for each. It also summarizes four critical components that progressive dairy producers have successfully implemented to protect water quality.
