The Holy Spirit, once forgotten, has been "rediscovered" in the twentieth century - or has he? Sinclair Ferguson believes we should rephrase this common assertion: "While his work has been recognised, the Spirit himself remains to many Christians an anonymous, faceless aspect of the divine being." In order to redress this balance, Ferguson seeks to recover the who of the Spirit fully as much as the what and how. Ferguson's study is rooted and driven by the scriptural story of the Spirit in creation and redemption. Throughout he shows himself fully at home in the church's historical theology of the Spirit and conversant with the wide variety of contemporary Christians who have explored the doctrine of the Holy Spirit. Foundational issues are surveyed and clarified. Hard questions are explored and answered. Clarity and insight radiate from every page. Here is the mature reflection of a Reformed

theologian who will summon respect and charity from those who disagree.

In his well-received *Christless Christianity* Michael Horton offered a prophetic wake-up call for a self-centered American church. With *The Gospel-Driven Life* he turns from the crisis to the solutions, offering his recommendations for a new reformation in the faith, practice, and witness of contemporary Christianity. This insightful book will guide readers in reorienting their faith and the church's purpose toward the good news of the gospel. The first six chapters explore that breaking news from heaven, while the rest of the book focuses on the kind of community that the gospel generates and the surprising ways in which God is at work in the world. Here is fresh news for Christians who are burned out on hype and are looking for hope.

personal and family challenges with faith.

"The following pages represent the gist of a series of sermons given on successive Sunday evenings to the congregation of the church of which I am pastor. The fact that these were originally spoken messages accounts for their racy style and for the personal references which occur in them occasionally. Had I been writing the messages I should have exercised greater care in the composition. The subject is, however, so vitally important that I feel sure the reader will pardon the offhand style of the language. The truth is always good even when the vehicle in which it rides is homely and plain."
